## Workshop Description:

This will be a full day of Needle Felting. Learn the art of sculpting figures - animals in 3 D. Or if you prefer a wall mounted work of art you can sculpt in low relief or "paint" with the colored wool. A myriad of colors will be available as well as lessons in blending with carding tools. Participants will have time to complete a project. Techniques or shaping will be covered as well as surface designs and embellishments. Another option is to bring a woolen scarf, boiled wool jacket or sweater to decorate.

## Artist's Bio:

Robin McCahill has been making things ever since she can remember. She teaches art in libraries, schools, colleges, art centers, re-hab centers, and at her studio.

Felting has been an intriguing force that turned to passion and has enabled Robin to explore two and three dimensional aspects of its qualities. Most of Robin's work is sculptural in nature. Her favorite medium is wool. Hand made felt always turns up somewhere no matter what the project. Though not solely a fiber artist you will find her work to have textural qualities that often refer to fiber textures or embody them. Her work is available at select shops and art centers or by contacting her directly ([robinhillary@intuit2arts.com](mailto:robinhillary@intuit2arts.com)). She also designs and builds props and puppets for performers as well as performing herself. She creates wearable art and home decor. Robin is available as a personal wardrobe consultant and can help you transform and update your current stock and help you maximize your personal style and presentation.
